Title: PRODUCTION OF ANTIBODIES

RESPONSE

Honorable Commissioner of
Patents and Trademarks
Washington, D.C. 20231

Sir:

In response to the Office Action dated May 29, 2002, the applicants elect the claims of Group I, i.e. claims 1-7 and 9. However, the Examiner is respectfully requested to reconsider the restriction requirement insofar as it separates the Group II, IV and V claims from the Group I claims. It is noted that these groups of claims involve a common search area, notably Class 800, subclass 288. The respective sets of claims are, therefore, related in terms of the search area.

It is also submitted that the Group VI claim (claim 13) should be included with the Group I claims. The respective methods are sufficiently related to warrant examining the claims of these two groups together. However, it is particularly evident that the Groups I, II, IV and V should be searched and otherwise considered together.

FRENKEN ET AL
Serial No. 09/737,476

Reconsideration of the restriction requirement to the extent indicated above is requested.

Respectfully submitted,

MORGAN LEWIS & BOCKIUS LLP
